

Historical Sightings 1951

- Australia, Central Australia: A group of Unmatjera aborigines observed a shiny circular object land near a similar craft, about 12 m in diameter. Several min later, a dwarf dressed in a shiny suit and having "a round, shiny head" came out of one craft and entered the other; both took off with a buzzing sound.
- Australia: The driver of a transcontinental train on the east-west line saw an object that illuminated the countryside like the full moon. It flew very fast, came close to the train, appeared ready to land in the desert, then took off and disappeared.
- Denmark, Sonderborg: Joseph Matiszewski, a mechanic, heard a whistling sound and saw an object land in a meadow. Approaching within 50 m, he found himself paralyzed and observed that birds had stopped singing and cows seemed to be similarly unable to move. From the object emerged four handsome men who had brown skin and wore black shiny suits and translucent helmets. Eight objects also emerged from the craft and hovered above it. Other men inside the craft and on its deck appeared to be making repairs, then the objects flew to about 100 m altitude and climbed rapidly out of sight. Only then did the paralysis subside.
- South Korea: U.S. Army platoon fires armor-piercing bullets at a hovering bell-shaped UFO in Chorwon, South Korea.
- USA, California, Mojave: Two forest observers were in a canyon 50 km north of the Mojave when they saw a disk-shaped flying object in the southwest; 10 m estimated diameter, 3 m thick, blue-green, well-defined, surrounded with a glow of same color. Stopping their jeep, they signaled to the object, which approached within a few meters, flew away, seemed to play with them. Eventually it vanished "like a magician's trick."
- USA, Nebraska, Peru: A man from Lincoln was driving to Indiana when he saw a blue light in the northwest sky. It vanished to the southeast. The witness missed a turn, had to go back toward Auburn, and had reached a point northwest of Peru when he saw an orange glow in the sky. Coming near, he observed the glow came from a cauldron-shaped object on the ground, about 12 m from the road. He stopped to examine the object, which measured about 10 m diameter and seemed to be made of cast iron. Thirty cm from the top was a row of windows, 25 cm in diameter, from which the orange light was coming. On the other side was a blue flamelike glow. There was no noise, no sign of life or activity, and no antenna or protrusion. The witness drove away.
- USA, North Carolina, Red Springs: Sam Coley and his two children saw an object with a human-looking occupant.
- Walter Webb, an astronomer saw a bright glowing light moving in an undulating path.
